

Eagle Scout, Zack Gourley, Lead's Harbor Community in Peck Park Planting. In April, Boy Scout Zack Gourley led 75 members of his community in an event at San Pedro's Peck Park to plant 27 trees. Zack faced many obstacles during the course of the project, but in the end it was a huge success. In December, Boy Scout Troop 854 celebrated Zack Gourley becoming an Eagle Scout.

Zack not only went through TreePeople's Citizen Forester class at our free Community Greening Workshop, but also attended a community tree planting in Long Beach prior to his event to observe and prepare.

Tree planting is just the beginning for these young trees. In August and again in October, volunteers went out to Peck Park to care for the new trees. Thank you Zack for being a leader in your community and congratulations on becoming an Eagle Scout! Our heartfelt thanks to the volunteers who continue to support the establishment of these young trees. Look for another tree care event in the park later this spring!
