

Please Join LAAC Venture Officers Association YAHOO Group!

It is very simple and emails sent to this group go to all members. This is our main communication tool within the VOA and helps keep all Advisers and Presidents informed.

Here are the steps:

Go to Yahoo.com and sign in. If you are currently not a member, just go to SIGN UP. This will give you a screen to create a Yahoo sign in name and email address. This can be anything; your dogs name, a street name, your initials, etc. Try a name you like, if it is already taken, it will tell you and you get another try.

Once you are signed in and on Yahoo, go to GROUPS. In the search window, type in LAAC Venture Officers. This will bring up our group web site.

Once in the Group Website, hit the JOIN button. This will open a window for you to type in who you are (sometimes your email address is not enough for us to tell!)

This will send an email to one of the administrators of the site and they will ACCEPT your membership.

That's it! You will give you access to all of the group files and forms as they become available and also start to receive our emails about meetings ,outings etc.

Thank you for taking the time to do this very important task.
